INTERNSHIPS

Fashion and lifestyle are more than glitter and glamour - there's a lot going on behind the screens. It's hard but fascinating work.

What will an average day involve? You might make sure that the showroom looks picture perfect, prepare press packages (press releases, pictures etc.) or you might be helping with the work for a press event. But then again, there is really no such thing as an average day, as the fashion and lifestyle industry is everything but average.

What will you learn? The reality of a press agency, underlying strategies, how magazines, press agencies and brands work together and how concepts are created and kept alive.

If you would like to be part of the industry and learn more, call Roel Mol on 020 - 421 12 26 or email him at Roel@pressonly.nl
