MULTI-TALENTED St Martin's graduate, artist, filmmaker, musician and all round multi-tasker Henrik Vibskov has teamed up with Dutch pram and pushchair innovators Quinny to produce a strictly limited edition collection for autumn/winter.

Dominated by his trademark colourful and eclectic prints, Vibskov takes us on a fairytale adventure through enchanted forests filled with odd and musical characters. Apparently the collection is made solely for babies and their parents, but we here at SUPERSUPER (not ones to shy away from anything childlike) love the collection so much that we believe that everyone should inject a bit of Danish magic and eccentricity into their lives this autumn.

The collection is available from October from selected retailers worldwide, including Colette in Paris, Seven in New York, SPRMRKT in Amsterdam and the Henrik Vibskov multi-brand stores in Copenhagen and Stockholm. Prices range from £15 for the fetchingly titled 'nose rag' to £125 for one of the fabulous Beaches — snap on us quick!
